Objective

Full Stack **Web Developer** with 2 years of experience in creating dynamic web applications. Proficient in front-end and back-end technologies, including HTML, CSS, JavaScript, React.js and Node.js, with a strong focus on delivering high quality stuff.

Experience

I have not any job experience yet. But I am a Freelancer. I have done many projects. I can make any website related to tech, business and, e-commerce.

Projects

- Developed a responsive Todo list application using HTML, CSS, and JavaScript, enabling users to efficiently manage tasks and track progress.

You can see here: [Todo List Website](#)

- Created user-friendly login and signup pages using HTML and CSS, ensuring a seamless authentication experience for users.

You can see here: [Login and SignUp Page](#)

- Developed a BMI calculator using HTML, CSS, and JavaScript, allowing users to easily calculate and understand their body mass index.
